PROFESSIONAL SUMMARY

I am a skilled developer with expertise in NodeJS, SQL and NoSQL databases, microservices architecture, and a range of frontend technologies including ReactJS, NEXT, Core PHP, Vue, HTML, CSS, Vanilla JS, Bootstrap, and TailwindCSS. With over two years of industry experience, I have successfully delivered complex projects for clients using cutting-edge technologies like AWS, Serverless, GCP, and Azure. I am proficient in Git and GitHub for source control. Continuously eager to learn and explore new technologies, I am a passionate problem solver who strives to create innovative solutions.

WORK EXPERIENCE

Associate Full Stack Developer   May 2021 - Present

Productbox   Peshawar, Pakistan

I contributed to diverse software projects, building efficient and scalable web apps using different technologies. I developed RESTful APIs, managed databases, and collaborated with different teams.

Developed efficient and scalable web applications using Node.js, Serverless, AWS, Flutter, ReactJS, AlpineJS, NEXTJS, Core PHP, Vue, HTML, CSS, Vanilla JS, Bootstrap, TailwindCSS and VueJS.

- Created RESTful APIs and managed SQL and NoSQL databases including MySQL, DynamoDB, Firebase Firestore, and MongoDB.
- Collaborated with DevOps teams for deployment and utilized agile methodologies.
- Conducted tests and analyzed data to ensure quality, security, and user interface experiences.
- Implemented procedures for ongoing website revisions and monitored website functionality.
- Collaborated with designers and clients on website architecture and design.
- Researched and evaluated various interactive media software products.
- I have demonstrated effective communication, collaboration, and continual improvement skills.

- Experienced in Git and GitHub for source control.
- Continuously eager to learn and explore new technologies and solutions.
- Proficient in AWS, GCP, and Azure for cloud infrastructure.- Strong problem-solving skills and a passion for innovation.

Mobile Application Developer   Aug 2020 - Nov 2020

Ideometrix   Islamabad, Pakistan

My primary responsibilities included designing the front end for the applications and helping out fellow interns who were new to Flutter, naming some of my responsibilities:

- Develop and implement new software by designing, writing, testing, and troubleshooting code.
- Analyze information and provide recommendations for the installation of new systems or modifications to existing systems.
- Evaluate program interrelationships to ensure changes in one part of the code do not produce unintended consequences in related areas.
- Program animation software according to predefined specifications for interactive video games, internet applications, and mobile apps.
- Write, modify, integrate, and test software code for e-commerce, internet applications, and mobile apps.
- Prepare documentation for new and updated software, ensuring comprehensive and accurate information is available.

INDUSTRY SKILLS
- Web Development: Node.js, React, Serverless, AlpineJS, RESTful APIs, Frontend Technologies (ReactJS, NEXT, Core PHP, Vue, HTML, CSS, Vanilla JS, Bootstrap, TailwindCSS)
- Database Management: SQL, NoSQL (MySQL, DynamoDB, Firebase Firestore, MongoDB)
- Cloud Infrastructure: AWS, GCP, Azure
- Version Control: Git, GitHub
- Agile Methodologies
- Testing and Quality Assurance (Unit Testing, Integration Testing, End to End Testing, via JEST)
- Collaboration and Communication
- Continuous Learning and Adaptability

- Problem-solving and Innovation

VOLUNTEER WORK

Student Ambassador   Aug 2020 - Dec 2021

Microsoft   Peshawar, Pakistan

As a Microsoft Student Ambassador, I spearheaded the promotion and adoption of Cloud, specifically Azure tools, among university students for their projects and startups. I orchestrated impactful hands-on workshops and seminars on GitHub and Cloud Computing concepts, empowering students with practical knowledge and skills in cloud resource utilization. By creating an immersive learning environment, I cultivated a strong affinity for cloud technologies, fostering innovation and equipping students with cutting-edge development practices.

EDUCATION

Bachelor of Computer Science   Sep 2017 - Nov 2021

City University of Science and Information Technology   Peshawar, Pakistan

Diploma of Associate Engineering   Sep 2013 - Nov 2016

Govt. Polytechnic Institute Sardar Garhi   Peshawar, Pakistan
