Software Engineer with 5+ years of full-stack development experience. I am passionate about creating efficient, scalable solutions and continuously seek to leverage emerging technologies to drive innovation and excellence in my work.

Core Skills

Soft Skills: • Problem-Solving • Communication • Team Player • Autonomous • Flexibility • Adaptability • Resourceful • Analytical Mindset
Frontend Skills: • ReactJS • NextJS • Vue • Tailwind CSS • Bootstrap • Material UI • jQuery
Backend Skills: • NodeJS • ExpressJS • Database • Redis
DevOps and Other Skills: • AWS • Docker • Microservices • Firebase • Cognito • New Relic, Sentry • PM2 • Selenium • Python

Education

BS | Computer Science **- Abasyn University**   Sep 2017 – Dec 2021

Work Experiences

Software Engineer   Dec 2022 - Present
DPL | Islamabad

Currently developing an ATS using React and Tailwind. Skilled in backend development with NestJS, microservices, and Docker. Experienced in AWS ECS deployment and creating responsive UIs. Proficient in ensuring high code quality with Jest.

- Currently focused on developing an Applicant Tracking System (ATS) with React and Tailwind.
- Successfully contributed to a mental health application using NestJS, showcasing expertise in backend development and the Jest Testing Framework for robust code quality.
- Proficient in crafting responsive and intuitive user interfaces with Tailwind CSS, ensuring a seamless user experience.
- Well-versed in microservices architecture, having previously worked on modular and scalable projects.
- Implemented containerization through Docker for streamlined deployment processes.

- Deployed applications on AWS ECS, leveraging the power of cloud services for optimal performance.
- Managed Docker images securely on AWS ECR for efficient image storage and retrieval.

Lead Engineer Software Engineer   Jun 2022 - Dec 2022
SFU Technologies | Karachi (Remote)

Experienced in leading teams for HRM and CRM system development, with expertise in the MERN stack. Skilled in writing Mocha and Chai test cases. Agile project manager committed to delivering scalable, high-quality, and user-friendly applications.

- Successfully led teams in the development of HRM and CRM systems.
- Proficient in utilizing the MERN stack for seamless integration.
- Strategic project manager following agile methodologies.
- Committed to delivering high-quality, scalable, and user-friendly applications.

Associate Full-stack Developer   May 2019 - Aug 2022
Productbox | Peshawar

Revamped an existing application using React, modernizing legacy code for better performance and user experience. Developed a Survey module and a JIRA & GitHub plugin and contributed to a flash sale website with AI captions. Streamlined operations for a senior healthcare client, consistently delivering high-quality solutions on time.

- I successfully undertook the task of revamping an existing application by implementing React norms and standards. This involved taking over legacy code and modernizing it to enhance performance and user experience.
- One notable accomplishment was the development of a Survey module for a client within the specified timeframe, enabling them to gather valuable insights from their users effectively.
- Additionally, I contributed to the development of a JIRA & GitHub plugin for the marketplace, streamlining project management and code collaboration processes.
- I played a key role in building a flash sale website for a renowned fashion brand. This involved integrating the Phoenix player for an enhanced multimedia experience and implementing AI captions for accessibility.
- Moreover, I joined a senior health care client, addressing their backlog and implementing solutions to streamline their operations and improve efficiency.
- Throughout these experiences, I demonstrated my ability to deliver high-quality software solutions, adhere to project deadlines, and contribute effectively to cross-functional teams.

Projects
Aging Choices
https://www.agingchoices.com

Aging Choices assists families in finding appropriate senior living and care options through a guided matching process, simplifying comparisons of facilities and connecting users with care providers

Caremerge
https://caremerge.com

Caremerge improves engagement and communication in senior living communities through tools like a digital calendar and voice technology, enhancing resident wellness and family interactions

Monster Pool:
https://www.monsterspool.com

Monster Pool enables interest-free lending among trusted groups, allowing members to pool funds and access shared resources through seamless, flexible transactions. It helps simplify financial management and fosters collaboration within small communities.

Yaad
https://yaadmemorybook.com

Yaad is a private app for preserving and sharing memories through photos, videos, and voice recordings. It allows users to invite family and friends to contribute, creating a secure memory vault that safeguards cherished moments for future generations.

Mavencery:
https://mavencery.com

Mavencery, enhancing grocery shopping with features like digital coupons, price comparisons, personalized suggestions, and spending tracking, while helping stores build their online presence.

Therappy:
https://www.linkedin.com/company/therappy

Therappy is a secure app offering affordable mental health support through video, voice, and chat, providing professional counseling anytime via smartphone.

Wysefit
https://www.linkedin.com/company/wysefit

Wysefit is a fitness platform tailored for adults aged 50 and older, offering personalized workout plans and classes to help users achieve their fitness goals. It emphasizes a science-based approach to fitness, promoting overall well-being and encouraging participants to live life to the fullest

KP Tourism
https://kptourism.com

KP Tourism promotes travel in Khyber Pakhtunkhwa by highlighting its cultural heritage, natural landscapes, and historical sites, offering information on destinations, accommodations, and tours

Horizon NYC
https://horizonyc.com

Horizon offers motorized blinds, shades, and drapery in New York, integrating energy-efficient and smart-home solutions for enhanced privacy, light control, and convenience

Simpli Human

https://simplihuman.com

Simpli Human promotes emotional well-being by providing tools for self-reflection and access to mental health resources, helping users lead balanced and mindful lives

ATS Killer

https://atskiller.com

ATS Killer - the career commando unit using cybernetic warfare to decimate those resume-shredding ATS robots and land your profile squarely in the crosshairs of real human hirers.
